

## ThrAGT

### GO:BP

regulation of cellular metabolic process

biosynthetic process

organic substance biosynthetic process

macromolecule biosynthetic process

regulation of primary metabolic process

regulation of nitrogen compound metabolic process

regulation of metabolic process

cellular biosynthetic process

regulation of cellular process

### GO:MF

## ThrTGT

### GO:BP

regulation of cellular metabolic process

regulation of primary metabolic process

positive regulation of biological process

regulation of metabolic process

regulation of biotic metabolic process

regulation of nitrogen compound metabolic process

regulation of cellular process

positive regulation of cellular process

regulation of transcription initiation process

positive regulation of cellular process

## GluCTC

### GO:BP

multicellular organism development

system development

anatomical structure development

developmental process

organelle organization

regulation of cellular process

### TF

transcription factor activity, sequence specific

### GO:CC

nucleoplasm

### GO:MF

protein binding

## GlyCCC

### GO:MF

HECT domain binding

G protein activity

GO:BP

KEGG

## LysTTT

### TF

transcription factor activity, sequence specific

REAC

GO:CC

CysACA

AlaAGC

GO:BP

KEGG
